    Title: The poetry of Sterling A. Brown: read by the author ..................... 79

Objects .............................................................................................................. 81

Example 1: Realia, naturally occurring object ............................................. 82
    Title: Geode ........................................................................................... 82
    Image: Geode ......................................................................................... 83

Example 2: Realia, naturally occurring object, packaged and distributed .... 84
    Title: Tree rounds set ............................................................................ 84
    Image: Tree Rounds Set ......................................................................... 85

Example 3: Realia, manufactured, multiple 300 fields .................................. 87
    Title: Hull House pottery ...................................................................... 87
    Image: Hull House pottery ..................................................................... 89

Example 4: Realia, distributed handmade item ............................................ 90
    Title: Set of 12 Jamaican lace-bark doilies .......................................... 90
    Image: Set of 12 Jamaican lace-bark doilies ...................................... 92

Example 5: Realia, tactile three-dimensional form ....................................... 95
    Title: Feely bag texture materials kit .................................................... 95
    Image: Feely bag texture materials kit .................................................. 97

Example 6: Toy (stage puppet) .................................................................... 98
    Title: Crocodile stage puppet ................................................................ 98
    Image: Crocodile stage puppet .............................................................. 99

Example 7: Model (male torso with dissectible parts).................................... 100
    Title: Tall Paul ...................................................................................... 100
    Image: Tall Paul ................................................................................... 102

Example 8: Art original (bronze plaque portrait mounted on wood base) .... 103
    Title: Cast bronze portrait of Shakespeare .......................................... 103
    Image: Cast bronze portrait of Shakespeare ........................................ 105

Example 9: Game (board game), game designer creator .............................. 107
    Title: Rise up ...................................................................................... 107
    Image: Rise up .................................................................................... 109

Example 10: Game (card game), no creator ................................................. 110
    Title: Uno ........................................................................................... 110
    Image: UNO ....................................................................................... 112
Example 11: Game (jigsaw puzzle), artist creator, part title, parallel titles ........113
  Title: Ravensburger puzzle ........................................................................113
  Image: Ravensburger puzzle ........................................................................115
Example 12: Microscope slides ........................................................................117
  Title: Prepared slides : set 1 ......................................................................117
  Image: Prepared slides : set 1 ......................................................................118
Example 13: Diorama (room box diorama), conjectured production date ..........121
  Title: Goodnight moon diorama ..................................................................121
  Image: Goodnight moon diorama ..................................................................123

Streaming Video ...............................................................................................124
Example 1: Video file, part numbering in title (reproduction) .........................125
  Title: The sixth annual International Women's Day Video Festival. Part 3 ...125
Example 2: Video file, episode of television series analyzed (reproduction) ......127
  Title: Inside Obama's presidency ..................................................................128
Example 3: Video file, series added entries (born digital) ..............................130
  Title: ARkSTORM .......................................................................................130
Example 4: Video file (born digital) .................................................................132
  Title: Solutions not suspensions ..................................................................132
Example 5: Video file (reproduction) ...............................................................134
  Title: Sisters with transistors .......................................................................134
Example 6: Video file (reproduction) ...............................................................136
  Title: Fury .....................................................................................................136
Example 7: Video file, no spoken dialogue (reproduction) .............................138
  Title: Tectonics .............................................................................................138
Example 8: YouTube channel (born digital) .....................................................140
  Title: Kurzgesagt = In a nutshell ..................................................................140
Example 9: Database (born digital) .................................................................142
  Title: Qwest TV edu .....................................................................................142

Video Games .....................................................................................................144
Example 1: DVD (PC) ......................................................................................145
  Title: Prototype ............................................................................................145
Example 2: Disc (Mac) ....................................................................................147
  Title: Empire master ....................................................................................147
Example 3: PlayStation Portable (PSP) ..........................................................149
Title: Tom Clancy's splinter cell............................................................................. 149
Example 4: Game Boy Advance............................................................................. 151
  Title: Looney tunes double pack ........................................................................ 151
Example 5: PlayStation ......................................................................................... 153
  Title: Razor racing .............................................................................................. 153
Example 6: Game Boy Color .................................................................................. 155
  Title: Spider-man 2 ............................................................................................. 155
Example 7: Nintendo GameCube ............................................................................ 157
  Title: Bloodrayne .................................................................................................. 157
Example 8: Online game ......................................................................................... 159
  Title: Realm of the mad god .............................................................................. 159
Example 9: Arcade game available through Internet Archive............................... 161
  Title: Venture ....................................................................................................... 161
Example 10: Game Boy Advance .......................................................................... 163
  Title: The Wild ..................................................................................................... 163
Example 11: Game Boy Advance .......................................................................... 165
  Title: Tom and Jerry tales ................................................................................... 165
Example 12: Xbox Series X/Xbox One ................................................................. 167
  Title: LEGO Star Wars: The Skywalker saga ....................................................... 167
Example 13: Nintendo Switch ................................................................................ 169
  Title: The legend of Zelda .................................................................................. 169
Example 14: Playstation 4 ...................................................................................... 172
  Title: Cyberpunk 2077 ....................................................................................... 172
Example 15: Virtual reality (VR) game ................................................................. 175
  Title: Rec room .................................................................................................... 175
Example 16: Virtual reality (VR) game ................................................................. 177
  Title: Fruit ninja VR............................................................................................ 177
Example 17: Virtual reality (VR) game ................................................................. 179
  Title: SculptrVR ................................................................................................... 179
DVD-Video and Blu-ray Discs
Example 1: Single work, no extra features (Blu-ray Disc)

Title: Frank Borzage’s Magnificent doll

538 \a Resolution: 1920x1080p.
511 0 \a Burt Shavitz.
508 \a Director of photography, Brian Jackson ; editor, Stacey Foster ; music, Howie Beck.
500 \a Originally produced in Canada as a motion picture in 2013.
500 \a Wide screen (1.85:1).
520 \a Shapiro takes us into the reclusive backwoods world of beekeeper Shavitz, still committed to living off the land in Maine, as he has since the 1970s, in a renovated turkey coop with no running water. Shapiro explores Shavitz's peculiar relationship with the company he co-founded with Roxanne Quimby. The birth of Burt's Bees and its emergence as a lucrative brand may be the stuff of legend, but it's also contentious: Shavitz sold his shares decades ago, reaping virtually nothing from the company.
500 \a Special features: Burt talks to the bees, shorts by Isabella Rossellini; theatrical trailer.

500 \|$a Full screen (1.33:1).
520 \|$a This news program covers the visit of President John F. Kennedy to the city of Nashville, Tennessee, on May 18, 1963, to give a commencement speech at Dudley Field of Vanderbilt University. His visit was the first of a nine-stop tour of the South. After being greeted at the Nashville Municipal Airport by Metropolitan Nashville Mayor Beverly Briley and Tennessee Governor Frank Clement, and interacting with Nashville citizens, President Kennedy took an 8-mile motorcade ride in the presidential convertible to the Vanderbilt stadium, becoming the first President to visit the University while in office in over 30 years. Over 25,000 crowded into Dudley Field to hear the President speak. Kennedy's speech, which appears in the recording in its entirety, focused on the social responsibilities of higher education and its graduates, encouraged public service, and touched lightly on the civil rights movement of the day and racial conflict associated with it. He also mentioned the planned construction of two new dams in Middle Tennessee, to be named for Tennessean statesman Cordell Hull and Congressman from Tennessee J. Percy Priest. After his speech, Kennedy pressed a key to begin excavation for the Cordell Hull Dam. He then had a luncheon at the Governor's Mansion before leaving for his next stop in Muscle Shoals, Alabama.

511 0 $a Louisa Young, narrator.
520 \ $a 'Spectacular. I can't stop thinking about it. Louisa Young is a beautiful, beautiful writer' Cathy Rentzenbrink, author of The Last Act of Love. This brutal, beautiful memoir from award-winning novelist Louisa Young is a heartbreaking portrayal of love, grief and the merciless grip of addiction. Louisa first met Robert Lockhart when they were both 17. Their stop-start romance lasted decades, in which time he became a celebrated composer and she, an acclaimed novelist. Always snapping at their heels was Robert's alcoholism, a helpless, ferocious dependency that affected his personality before crippling and finally, despite five years of hard-won sobriety, killing him. There are a million love stories, and a million stories of addiction. This one is truly transcendent. It is at once a compelling portrait of a unique and charismatic man; a bittersweet reflection on an all-consuming love affair; and a completely honest and incredibly affecting guide to how the partner of an alcoholic can possibly survive when the disease rips both their lives apart. This is a hugely important book - raw and unflinching but also uplifting and elegiac, it should be essential reading for anybody who's ever lost someone they loved.

511 0 $a Host: Jacob Smith.

520 3 $a ESC is a work of experimental audio-based scholarship combining sound studies, radio history, and environmental criticism. This unique project is a fully open access, fully digital suite of audiographic essays, presented as a ten-part podcast series, combining spoken commentary, clips from classic radio dramas, excerpts from films and television shows, news reports, and the work of contemporary sound artists. A brief written essay on the ESC website provides a helpful introduction and context for this project. ESC takes as its point of departure the CBS Radio adventure series Escape (1947-54). The postwar years saw both a decline in popularity for American radio drama, and the dawn of the Anthropocene era, with human beings emerging as the primary force affecting the earth's systems. Jacob Smith considers Escape's adventure stories from an ecocritical perspective, analyzing the geographic, sociopolitical, and ecological details of the stories to reveal how they are steeped in social and environmental history. The work of contemporary sound artists and field recordists underscores the relevance of sound in these narratives and demonstrates audio's potential as a key medium for scholarship. ESC features recordings by some of the most prominent sound artists working in this area, including Daniel Blinkhorn, Peter Cusak, David Dunn, JLIAT, Christina Kubisch, Francisco López, Sally Ann McIntyre, Chris Watson, and Jana Winderen. ESC makes the urgency of our critical ecological moment audible in a new way. The audio essays articulate what it means to live in an Anthropocene era and posit alternative ways of conceptualizing our historical moment. ESC
sharpens our ability to listen and respond to our world with greater ecological awareness.

These audio and video materials, created by more than 120 public broadcasting organizations across the country, have now been digitized and preserved, and will be a resource for scholars, researchers, educators, filmmakers and the general public to delve into the rich history of public broadcasting across America. The website will initially provide access to 2.5 million inventory records created during the American Archive Content Inventory Project. The records will provide information about which public media video and audio materials have been digitized and preserved in the AAPB, indicate which video and audio files are available for research on location at WGBH and the Library of Congress, and highlight the participating stations. Contributing stations' histories, information about significant productions and resources for participating organizations will be available online." --AAPB blog.

Dale Cox, Project manager for the USGS Multi-Hazards Demonstration Project, talks about two projects. The first explains how Dale and his team developed a scenario of a large earthquake in southern California for use by first responders and emergency planners, called the Shake Out. The second is an ongoing project called ARkSTORM which is developing a scenario for severe winter storms on the West Coast.

Speaker, Dale Cox; moderator, Leslie Gordon.

Produced by Western Region Office of Communications, William Rambo, Leslie Gordon, Amelia Barrales; webcasting by Amelia Barrales.

System requirements: PlayStation Portable (PSP)); Region 1; wi-fi compatible.
Disc characteristics: UMD (Universal media disc).
$1 2 players.
ESRB rating: M (Mature 17+; strong language, violence)
Developed by Ubisoft.
Title from disc label.
"Tom Clancy's Splinter Cell: Essentials creeps its way onto PSP in an espionage adventure that touches upon Sam Fisher's entire career, from his time as a Navy SEAL to the death of his daughter, fleshing out the storylines in each console game in the process. The viewpoint is similar to the console versions, with players controlling Fisher from a third-person perspective in a variety of outdoor and indoor 3D environments, some of which include levels introduced in earlier games. The handheld title runs on a modified version of Splinter Cell: Pandora Tomorrow's graphic engine on PS2, incorporating such trademark effects as real-time lighting. "--AllGame guide.

System requirements: PlayStation with the NTSC U/C designation; memory card uses 1 block.

Disc characteristics: CD-ROM.

1-2 players.

Title from disc label.

Includes booklet laid in container (23 pages: illustrations; 12 cm).

"The sequel to Razor Freestyle Scooter, Razor Racing has the same Tony Hawk-inspired gameplay but more of a focus on racing the small scooters carrying the Razor brand. The game includes 13 different characters to play and six areas in three cities. Each city has a track and a park. Once you successfully win the track race, you then have to beat a specified score in the freestyle park, which will then unlock the next city. Players can also collect tokens, to make available new characters. By performing tricks and adding to the score, players can unlock new tricks and upgraded abilities such as better and increased speed. The multiplayer modes include Time Trial, Trick Parks, Freestyle Race and Circuit."--Moby Games.

508 \| $a Developed by Exidy.
520 \| $a The goal of Venture is to collect treasure from a dungeon. The player, named Winky, is equipped with a bow and arrow and explores a dungeon with rooms and hallways. The hallways are patrolled by large, tentacled monsters (the "Hallmonsters") who cannot be injured, killed, or stopped in any
way. Once in a room, the player may kill monsters, avoid traps and gather treasures. If they stay in any room too long, a Hallmonster will enter the room, chase and kill them. The more quickly the player finishes each level, the higher their score - Internet Arcade.

538 \ $a System requirements: in-browser emulation Javascript MESS (JSMESS) player runs in most modern browsers and maps to most keyboards.

$a Take to the skies, draw your sword, and experience the earliest story in the Legend of Zelda series. Join Link in his high-flying quest to save Zelda, a childhood friend who must confront her destiny. Soar between floating islands and descend to the treacherous surface world in this updated HD version of the Legend of Zelda: Skyward Sword game. Gently swing your sword and angle your slashes to uncover and break through opponents' defenses using intuitive motion controls. Link's in-game movements will correspond to the angle of each strike you make with the Joy-Con controller, creating immersive swordplay that relies on strategy and accuracy. Movements feel smoother and more immediate thanks to the Nintendo Switch system's processing power and HD graphics. Take advantage of the newly-added button
only control scheme--perfect for playing in handheld mode or on the Nintendo Switch Lite system.

520 \4 $a "Night City changes everybody. Cyberpunk 2077 is an open-world, action-adventure story set in Night City, a megalopolis obsessed with power, glamour and body modification. You play as V, a mercenary outlaw going after a one of a kind implant that is the key to immortality. You can customize your character's cyberware, skillset and play-style, and explore a vast city where the choices you make shape the story and the world around you"--Container.
