**OPEN DISCUSSION  
ON TOURNAMENT MANAGEMENT PRACTICES**

**Basic discussion centered around the term of "wellness" as related to forensic tournaments. It was explained that "wellness" dealt with the stress of tournaments; how to make tournaments more enjoyable in terms of wellness by considering such items as better food, reasonable time schedules, and other factors which promote "wellness." A side issue was raised as to the length of the forensic season and whether or not the season should be shortened.**
