

Internet Timeline

White card with text on a blue folder, partially obscured.

Small green card with text, placed on the keyboard.

➤ US White House goes on line
(http://www.whitehouse.gov)

➤ President Bill Clinton
president@whitehouse.gov

➤ Vice President Al Gore, vice
president@whitehouse.gov

➤ Mosaic, which is one of the first Internet
browsers is released and proliferates
the web with a 3400-34% annual
growth rate of service traffic. Mosaic
provides a graphical interface to search
the Internet, thus making the Internet
more visually appealing. Mosaic's
growth is 99.7%.

Dr. Leonard Kistritz, Internet pioneer and
professor at UCLA poses with the Internet
Message Processor (IMP), developed at the
30th Anniversary of the Internet.
