Queer Student Development Theory
Gay people, who seldom grow up in gay families; who are exposed to their culture’s if not their parents’ high ambient homophobia long before either they or those who care for them know that they are among those who most urgently need to define themselves against it; who have with difficulty and always belatedly to patch together from fragments a community, a usable heritage, a politics of survival or resistance.

~ Eve Kosofsky Sedgwick

- Partner Violence between Lesbians
- Etc...
On Resiliency

- queer students accrue an “ironically beneficial impact” as “they have already surmounted more obstacles than their heterosexual peers...They have learned to persevere” (Renn, 2000)
- “A sense of strength was gained from the experience of fighting back (Scourfield)
- Identification with the community allows them to cope more effectively with internalized homophobia (Scourfield)
